AL-BERUNIY INTERNATIONAL SCHOOL IN TASHKENT

Dikhumor Oltinbekova

UzSWLU, 3rd English faculty

Abstract

The Al-Beruniy International School in Tashkent offers a modern and inclusive educational experience for both local and expatriate students. With a focus on providing a holistic education, the school offers a wide range of co-curricular activities such as sports, music, art, and debates. Additionally, the school prioritizes language learning, offering classes in various world languages. Its diverse student community helps foster a sense of global citizenship, and state-of-the-art facilities create a supportive learning environment. Overall, Al-Beruniy International School is a leading institution in Tashkent that prepares students for success in a rapidly becoming globalized world.

Keywords: globalization, education, Al-Beruniy International School, local community, expatriate community, Tashkent, modern building, modern-day learners, experienced educators, co-curricular activities, world languages, multilingualism, diverse student community, global citizenship, safe learning environment, state-of-the-art facilities, growth, development, quality education.

As the world is becoming more globalized, the importance of having a strong educational background cannot be overstated. It is from this understanding that Al-Beruniy International School was founded in 2016 to cater to both local and expatriate communities in Tashkent. ABIS successfully combines a well organized British Curriculum with traditional education style, in order to allow our students to have higher knowledge to surf the world.

Located in the city's growing and vibrant Chilonzor district, the building itself is a modern one, designed to accommodate the needs of modern-day learners fully. The school has an excellent team of experienced educators who are dedicated to making learning engaging, impactful, and relevant. Mrs Ulugbek has been the head of the Al-Beruniy International School since 2016, owner of ABIS. Under his leadership, the workers have been able to realize their full potential and provide the best possible education for their students. One of the key aspects of Mrs Ulugbek leadership has been his focus on continuous improvement.

In addition to the regular academic curriculum, Al-Beruniy International School is determined to provide a holistic education. The school strives to ensure that students are involved in co-curricular activities such as sports, debates, music, art, and drama.

One unique aspect of the school is its focus on world languages. Being an international school, Al-Beruniy offers a vast array of language classes, including Spanish, French, German, and Mandarin, to mention but a few. With the world becoming more interconnected and multilingualism a vital asset, the emphasis on language learning cannot be overstated.

The school takes pride in its diverse student community, which is made up of both local and expatriate students. The inclusive model used in the school helps instill a sense of global citizenship among the learners. Students learn about different cultures and ways of life, helping to broaden their worldview. Al-Beruniy International School is dedicated to providing a safe and conducive learning environment for its students. The school has state-of-the-art facilities, including a library, modern science labs, and sports facilities, among others. These facilities help to create an environment that supports growth and development.

ABIS also have an early childhood program (ABIS Preschool) in which children combine learning with [play](#) in a program run by professionally trained adults. Children are most commonly enrolled in preschool between the ages of three and five, though those as young as two can attend some schools. Preschools are different from traditional [day care](#) in that their emphasis is learning and development rather than enabling parents to work or pursue other activities. The head of ABIS Preschool is Umarova Mamura whose expertise, knowledge, and experience in the field of education have been instrumental in shaping the growth and success of the Preschool.

Al Beruniy International School (ABIS) always strives to create new opportunities for the younger generation and achieve great heights. This time, the international school surprised with its idea in a relatively new STEM industry. May 21, 2022 became one of the historical dates marked by ABIS. The grand opening of the project called ABIS STEM Academy took place. The head of STEM Academy is Hasan Hasanov. The teaching method at this campus is completely based on STEM (Science, Technology, Engineering, Mathematics). This is a model of education that combines natural sciences and design into a single system in which students are faced with real problems that require bold creative solutions and a strong base of academic knowledge. It is this approach in teaching that the STEM Academy aims to develop, in which students of grades 7-11, gifted in the field of exact and natural sciences under the Pearson Edexcel program, will study in English.

Indeed, Al-Beruniy International School is a leading institution in Tashkent, offering quality education that meets global standards. Its commitment to holistic education, multilingualism, and inclusive learning environments makes it stand out. Its students are well-rounded and prepared for the challenges and opportunities of the real world.
