Abstract

Today, we are establishing a new state of Uzbekistan, a free civil society, based on populist and democratic principles. For this purpose, large-scale democratic reforms aimed at strengthening the political and legal foundations of our state and society, modernizing the country, strengthening the role of parliament and political parties, and public control in this process are being rapidly implemented.

Based on the principles of "Human interests are above all else" and "State agencies should serve our people, not the people", we are all united by the fact that the social problems of the citizens are being solved, legal and legal interests are provided, and the humanitarian policy carried out in recent years in our new Uzbekistan is being recognized by the world community. It makes us happy, it adds enthusiasm and enthusiasm to our efforts.

President, for us, human dignity is not some abstract, lofty concept, human dignity means, first of all, the peaceful and safe life of every citizen, the provision of his fundamental rights and freedoms, the establishment of decent living conditions and modern infrastructure for every citizen, qualified medical service, he emphasized that it is intended to create quality education, social protection system, and a healthy ecological environment. To achieve this goal, the main task is to effectively use the opportunities of the neighborhood institution, which is a unique democratic structure in the world, to further expand its powers, and ultimately to turn the neighborhood into a decisive link of our society.

It is a fact that the "Temir Daftar", "Women's Daftar", "Yoshlar Daftar", "mahallabay" and "khonadonbay" work systems introduced in our country in order to eliminate social problems are giving initial positive results. Particular attention is being paid to ensuring the rights and interests of our veterans, women, youth, and people in need of assistance.

In particular, modern houses are being built for our citizens and women who are in need of housing and have limited opportunities. Orozkhon Avazova, who lives in "Katta Sovur" neighborhood of Shorchi district, Surkhandarya region of the Republic of Uzbekistan, is very happy today. He moved into a modern 4 bedroom house.

.... Spring 1985. On the eve of graduating the 4th grade with excellent grades, Orozkhol Avazova, who was driving a big car with her friends, fell out of the car and suffered a head injury. First aid was given to the girl immediately.

Orozkhol, who suffered a severe head injury and lost his memory, regained consciousness after two years of continuous treatment and started attending school again. Orozkhol Avazova, who does every job intelligently and never misses reading a book, unexpectedly got a headache again and one side stopped working. Years passed, the disease took its toll, and the patient's condition worsened... By 2001, there was no doctor who did not see the girl who had forgotten to speak. But...

Orozkhol Avazova, a resident of Pistamozor village of "Katta Sovur" neighborhood of Shorchi district of Surkhondarya region of the Republic of Uzbekistan, was built a modern 4-room house with all conditions on the initiative of the President and the governor of the region based on the principle of "For human dignity".

O'.Avazova, who has limited means, but whose heart is waiting for joy and happiness, is grateful for being included in the "Women's Register" and for the attention and care shown to her. Orozkhol, who has difficulty walking, talking, and explaining his purpose, is closely assisted by his sister Sayyora Avazova.

- Our village is located 19-20 kilometers from the district center, - says Sayyora Avazova. - Good luck, the authorities did not ignore our appeal. Thank you for building a modern, livable 4-room house. We moved to a new house. Is there more happiness than that? Like my sister, my joy is boundless.

It is certainly a joy that the sisters, who cannot hold back their tears of joy and satisfaction, will live in a house where blessings will be poured from now on. It is a blessing to live in a free and prosperous country where human dignity is honored.
